AUTOS CRASH; 2 ESCAPE INJURY

Two men had a miraculous escape from injury in an auto smashup at Pullman avenue and Cutting boulevard last evening. They were A. M. Gerrera, salesman, 86 Montana avenue, Oakland; and George A. Arthur, 554 Central avenue, Alameda.

Gerrera, was turning from Cutting boulevard into Pullman avenue when his steering knuckle snapped. Before he could use his brakes or shut down the engine, his machine crashed head-on into that driven by Arthur.

Both men although remaining in their machines at the time of the crash sustained no injuries.

THREE STREETS TO BE OPENED ENTIRE LENGTH

Condemnation proceedings involving $12,000 for opening of Main, Florida and Virginia streets from Aashland avenue to the Southern Pacific right of way have been cleared up and the streets ordered open. City Engineer Chapman was instructed by the council last night to open the extension of the three thoroughfares across the Santa Fe property to Ashland avenue.

MISS M. HULANISKI BECOMES BRIDE OF WILLARD F. POAGE

Miss Marcia Hulaniski, daughter of F. J. Hulaniski, magazine writer and newspaper man, became the bride of Willard Strainfield Poage, a prominent young bank clerk at the Hulaniski home this afternoon. The ceremony was performed by the Rev. H. K. Sanborne, pastor of the First Presbyterian church.

Little Miss Ida Engelking, the pretty five year old daughter of Mr. and Mrs. Henry Engelking of Los Angeles attended the couple as flower girl. In attendance at the wedding were some twenty guests, intimate friends of the couple.

Both bride and groom are graduates of the Richmond high school. Poage is the son of Mr. and Mrs. A. H. Poage, well known residents of this city. He is connected with the Mechanics bank with which firm he holds an excellent position. Immediately following the wedding the newlyweds left for San Francisco where they will board a boat for Sacramento. From Sacramento the couple will go into the Sierras.

Returning from their honeymoon they will take up their residence on eighth street.

KNOTT'S PLEA WILL BE MADE ON AUGUST 28

(Special to Record-Herald)

MARTINEZ, August 22.—Attorneys W. S. Tinning, J. E. Rodgers, and T. H. DeLap will represent Supervisor Zeb Knott when he comes before Superior Judge A. B. McKenzie to plead to bribary charges Monday. Knott was in court yesterday at which time an amended complaint was filed by the district attorney's office.

At the conclusion of the reading of the amended indictment by clerk of the court, George Barkley, he asked Knott if he was "guilty or not guilty." Before the supervisor could answer, Attorney J. E. Rodgers for the defense asked that the time to plead be put over, because the attorneys for Knott had not seen a copy of the amended indictment.

EITHER PURCHASE A FORD OR AUTO SAYS COUNCILMAN

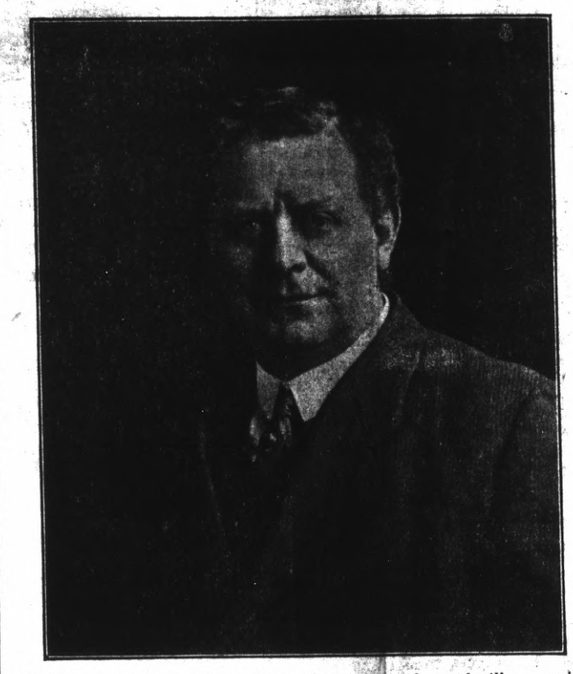

Laughs were few and far between at the city council meeting last night, but Otto Ludewig, a member of the board managed to draw one when he said: "Lets get rid of the present police patrol and get either an automobile or a Ford.

Upon the recommendation of the council the matter of obtaining a small runabout was referred to the police committee to report upon Monday night. According to Ludewig the present patrol is undergoing repairs at the present time and has always been a "white elephant" on the city's hands. The big machine will be traded as part payment for a smaller car.

VAG GIVEN FIVE DAYS IN JAIL

J. Caro, arrested for vagrancy was given a five day sentence in the local jail by Police Judge Jacobs today.

"PAP" DONNELLY

Richmond lovers of music will do well to engage their seats immediately for the high class operatic concert which the Moose will give at the Richmond theater tomorrow evening. The sale of seats is going very rapidly.

The Moose concert tomorrow evening is of a character that has never before been seen in this city and the committee has gone to a large expense to procure the best talent possible for such an affair. The idea of having portions of various grand operas combined with a smattering of vaudeville promises to be one of the dramatic hits of the season. It will also give those who have never witnessed grand opera a chance to see plays in which Caruso, Melba and Shumann-Heinke have starred.

Supervising the work of all of the committees is Charles Donnelly, one of the most prominent fraternal men in Richmond. Donnelly is working very hard to make the show one of the most successful ventures which the Moose of Richmond have ever attempted.

CITY EXEMPTS THEATERS FROM LICENSE TAX; PROBE WATER CO'S

Theaters were exempted from the new city tax and the mater of licensing the water companies was held up for a week's investigation by the city council last night. Councilman Gerlach, classed the theaters with other lines of legitimate business He said:

"Theaters nowadays are just as essential to a city or community as the butcher, the baker or any other mercantile firm. I strenously object to a tax of $40 a year being imposed on them.

Gerlach's objection was supplemented by several other members of the board who argued the ratio of tax and returns of theaters and water companies. The water companies pay $100 a year and have nearly and hundred percent more returns than the showhouses yet according to the tax theaters pay a higher rate than the water concerns.

RIPLEY TELLS HEADS THAT TIME HAS COME TO DECIDE

WASHINGTON, August 22.—The committee of eight railroad presidents reported this afternoon that they were unable to reach an agreement.

After the other presidents had urged them to continue their deliberations, the committee arranged for luncheon at the Metropolitan club and will resume their session later in the afternoon.

WASHINGTON, August 22.—The railroad presidents were still busy early today, studying President Wilson's proposals to avert the threatened strike of 400,000 locomotive engineers, firemen, brakemen and conductors.

The faction headed by E. P. Ripley, president of the Santa Fe, however, is insisting that the time has come to determine who is to run the railroads, and that arbitration is essential to settle all such disputes.

The pacifists are advocating the acceptance of President Wilson's demands. As this faction is the stronger it is believed that the railroads will eventually give in.

At this morning's conference the railroad men were discussing counter propositions.

SUE CARLSON SAYS D. A. TO CHURCH WHICH ASKS DAMAGES

(Special to Record-Herald)

MARTINEZ, August 22.—Upon the recommendation of District Attorney T. D. Johnston the board of supervisors today turned down the claim of the First Methodist church of Richmond for $50 damages to have been committed on the night of June 16th in the arrest of Rev. P. E. Petersen.

Johnston stated the damage claim to be a myth and that he was positive no police officer had committed any such rash act. He further stated that were any damages committed he had his opinion who the miscreant was. The general supposition from this remark was that the damage was committed by someone outside of the police.

According to the district attorney the only recourse which the directors of the church have is a civil suit against Assistant District Attorney F. M. Carlson.

DAYS IS 3 MONTHS AND 27 DAYS, AND IT DOES NOT ORDINARILY TAKE THE AVERAGE ATTORNEY THIS LONG TO DRAW A COMPLAINT IN A RED LIGHT ABATEMENT CASE, BUT AS THE DISTRICT ATTORNEY'S OFFICE HAS NOT YET FILED THE COMPLAINT IN THE GRACE MILLER CASE, IT IS POSSIBLE THEY ARE STILL AT WORK PREPARING THE DOCUMENT.

THE WHEELS OF JUSTICE SEEM TO GRIND SLOW IN RED LIGHT ABATEMENT CASES.

WHY?

$10 BALK MAY LOSE A $1700 SALE TO CITY

David Cameron, Pullman real estate dealer, lost the temporary sale of a fire house site to the city last night when he balked at paying for a certificate of title for the property. The sale involved $1700 while the cost for a title certificate would have been but $10.

Cameron, who represented G. C. Griswold in the sale, thought that since the city was purchasing the property, it should befall the city attorney to investigate the lot's title. City Attorney Hall objected to this at which the board went into a long discussion on the purchase with the result that it was finally referred to the city engineer to investigate the possible water supply to Cameron's property.

SUPERINTEND OF SCHOOLS AT MEET

City Superintendent of Schools W. T. Helms, accompanied by County Superintendent of Schools W. H. Hanlon, left for Lake Tahoe today to attend the annual convention of school superintendents.

COUNCIL MAY STOP USE OF HOTELS FOR IMMORAL ACTS

An ordinance which will restrict habitues of the red light district taking lodgings at hotels and apartment houses is gbeing considered by the city council.

Attorney Alvin Gerlach, president of the Public Welfare league, presented a copy of the rooming house and hotel ordinance used by the city of Los Angeles to the council last night. It was referred to the city attorney and members of the ordinance committee to investigate and report upon next Monday evening.

Among the more specifically stated clauses in the ordinance is one which compels each policeman having a hotel or transient lodging house on his beat to watch all persons coming and going. The ordinance allows the police free access to the hotel registers.

Gerlach asked that the council adopt an ordinance of this nature to thwart the use of hotels by red light habitues. According to Gerlach the league has received many threats from inmates of the various red light houses in this city in which they stated that were their places of abode closed they would simply move to the hotels and apartment houses.

ASKS $1000 TO MAKE A RATE PROBE

City Attornye D. J. Hall, was instructed by the city council last evening to confer with several Berkeley officials in the matter of water rate fixing. The instructions to Hall followed a communication from H. Dockwieler, consulting engineer stating his firm would conduct an investigation into the water rate fixings of this city for $1000. This bid was $250 higher than that received one week ago from another firm.

THE GAME OF LIFE

"So you really regard life as a gift," asked one of an after dinner group dubiously?

"Of course I do," was the reply of a middle-aged woman, thrice a mother, who had seen illness and trouble enough to discourage half a dozen weak souls.

"I can't see it that way," went on the first speaker. "I can't see why we should fuss so about infant mortality, for instance seems to be maudlin sentimentality. Why should those babies live, anyhow? Especially the babies in the slums. What is life for them? Nothing but drudgery and skimping misery for a few years. What's the use? Let them die in peace, say I."

"Yes, they will suffer," conceded the other. "But slowly we are learning to make life easier for people. They will not suffer I think, as much as the slum children of a hundred years ago. Life will be fuller and richer for them, and they in turn will make it better for those to come."

"But what does it all get to? What is it for?"

The woman smiled. "Of course I might talk to you of such things as spiritual joy and peace," she said. But it seems to me I can justify life even on a materialistic basis. For myself, I am thrilled with enthusiasm for human invention. I want to know. I want to find out all the hidden things of nature.

"Think of such trite things as telephones and submarines and aeroplanes! A hundred years ago life did not have those things. Nature is full of hidden forces She has a whole cellar full of treasures, so to speak.

"You know how a story of buried gold will hold its readers To me all life is a great game of searching nature's stores. I want to see all the good things brought out for the service of mankind I'm as eager over the isolation of a new germ as a child over a Christmas stocking.

"Yet I know nothing at all of science from the technical side. What I love is the game. I love to hear of new lands explored new developments of electricity chemistry or the powers of air And most marvellous of all are the excursions of psychologists into the powers of the mind.

"Everywhere one turns there are those great fields yet untouched. One cannot even dream in the most fantastic fashion of what will come.

"It's glorious! I want to live to be a hundred, and then after I've had my chance to rest, and faith we shall need it—lie down for an aeon or two. I want to be reincarnated and come back again to play the game some more. And if one existence be all I am granted, I want to look down from the gold bar of heaven and watch my descendants playing their game and cheer them on in spirit."

"Playing with Nature for the sake of hidden treasures." Wasn't the woman right? Is any burden heavy enough to make one lose the zest of it? Isn't life worth any suffering. if only we may play this game?

So far as our literary research has revealed, no novel heroine was ever fat, but the novel is so apt to leave the heroine about the time she begins living happily ever afterwards, which is somewhat in advance of the middle-aged spread.

AND THE PEOPLE PAY

The Stockton Mail calls attention to the fact that there are men living whose lives cover a year when the United States' revenues from all sources were only $2,000,000 more than the government of California spends in a single year.

In 1834 the total federal revenues were $20,624,000. The total expenditures the previous year (1833) amounted to $25,000,000. The bonded indebtedness of the union was less than $30,000,000 and there was a surplus of $11,000,000 in the treasury.

Those were the days of Jacksonian democracy, before innumerable adventures into paternalism placed tax payers on a hot griddle for fat frying.

Federal statistics show that, in proportion to its population, California is paying more for government than the people or any other state.

To emphasize the point, government in California is costing the people about $18,000,000 annually.

It is useless for politicians to try to make well-informed people believe that the corporations are paying the bulk of this amount. Public carriers and utilities are, by constitutional law, protected from confiscatory rates, and their rights to dividends are guaranteed by law. Every levy made on public utilities is but an indirect levy on the people. Every dollar that goes into the state treasury originates in the pocket books of the people.

FREIGHT PRICES HIGH

At Anchorage, Alaska, there is a newly established newspaper which has taken the name the Forty-Ninth Star. This has nothing to do with the firmament, but insinuates that Alaska expects to get a shining spot on the industrial and matrimonial affairs as the following extract will illustrate:

Steve Birch, president of the Kennecoot Copper corporation, and his bride were passengers up to Cordova on one of the last steamers. A Juneau paper is full of descriptions of how the steamship company furnished the newly weds with a specially constructed suite of rooms and a private bath, all connected," etc. But why all this twaddle about Steve Birch? No one supposed that his bed room or bath room upon an occasion of this kind would be public! The only thing that might make this folderol interesting is the fact that is serves to explain why the freight on potatoes to Alaska was from that date raised to $25 per ton. Remember that every time we Alaskans take a mouthful of hot potatoes we help pay for that "private bed room," so graphically described by that renowned journalist, Johnnie Troy of Clallum county, Washington.

Though not a lawyer, Sam Gompers has plenty of legal nerve, as he proved by reviewing an opinion written by Hughes when a member of the supreme court.

"Cussing" also comes high in a Baltimore police court, where a man was fined $5 per for doing it six times before he could be stopped.

Home shoe-buyers can't be expected to weep, if the Czar's plan to crowd American shoes out of the Russian market succeeds.

OF LOCAL INTEREST

Some People We Know, and We Will Profit by Hearing About Them.

It took place in Richmond.
Not in some faraway place.
You are asked to investigate it.
Asked to believe a citizen's word;
To confirm a citizen's statement.

Any article that is endorsed at home is more worthy of confidence than one you know nothing about, endorsed by unknown people.

Wm. Herman, carpenter, 605 Ninth St., Richmond, says: "I think heavy lifting is what weakened my kidneys and caused kidney complaint. I had a heavy, bearing-down pain across my kidneys, which made me fell bad all over. My kidneys acted irregularly and the kidney secretions were unnatural. Six boxes of Doan's Kidney Pills, procured from the LaMoine Drug Co., helped me as nothing else had ever done."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan't Kidney Pills—the same that Mr. Herman had. Foster-Milburn Co., Props., Buffalo, N. Y.—Ad.

For a mystery motion picture, rivaling in its interest and strange fascination the celebrated Arthur Warren Waite poisoning case in New York City is the vivid five-part film drama, "What Happened at 22" which is the attraction at the Richmond theater this evening with Frances Nelson and Arthur Ashley in the principal roles. This unusual photoplay document was written by Paul Wilstach, well known writer of Broadway successes, and produced for the World Film corporation by the Frohman Amusement company, under the direction of George Irving.

Amateur photo players, who are at the same time millionaires, are not often to be found in pictures, but such is the case in "The Dupe," a Paramount picture produced by Lask, at the Richmond theater tomorrow. In the fox hunt scenes members of the wealthiest and most fashionable of America's society took a prominent part. It is estimated that over a million dollars was represented by the amateurs.

UNION OIL CO. TO SHARE ALL PROFITS WITH MANY EMPLOYES

Every employee of the Union Oil company and the Producers' Transportation company who has been with the company for a year will hereafter share in the profits of the corporations, provided the net profits are more than 5 per cent of the outstanding capital stock.

In other words, after the payment of dividends of 5 per cent part of the surplus will go to the thousands of men and women working for the companies. It makes no difference where the work is done, whether as laborer, driller, in the office or in the sales force. Everybody shares.

The announcement was made yesterday afternoon by E. W. Clark, vice president and general manager, with the approval of W. L. Stewart.

RATE OF SHARING

The rate of profit sharing is as follows:

Profit less than five per cent on capital stock, nothing.

Profit between 5 and 10 per cent on capital stock, 2½ per cent of annual wages.

Between 10 and 15 per cent, 5 per cent of annual wages.

Between 15 and 20 per cent, 7½ per cent of annual wages.

Over 20 per cent, 10 per cent of annual wages.

If this was applied to the earnings of 1915 there would have been nothing left for the employees, but the profits will be much larger in 1916, according to present reports of the company.

The allowance in the profit sharing will be greater for older employees than for those who have just begun to work for the company. Full disbursements will not be made unless the employee has been in the service of the company for three years or more. The proportion to those working for three years or less is as follows:

Time of Service—	Pct of Share.
Three years and more	All
Two years	Three-quarters
One year	Half
Less than a year	Nothing

CASH AND STOCK PAYMENTS

Should an employee receive more than $2,500 a year the company can pay the profit sharing allotment in stock or cash, as it desires. If the employee receives less than $1200 a year the payment will be in cash.

Clark in making the announcement urges every employee of the company to concerted action, so that each person's share may be as large as possible. Clark says:

Regular wages will be paid in cash and under the scheme employees become as nearly as possible working shareholders in the company. As such it is their business to speak for it, to work for it and boost for it as their business. The organization as a whole and each individual has a definite goal for each year's work.

It is to the interest of everybody that only men of loyalty and industry be retained. Every employee will be expected to bring forward all ideas which he thinks will advance the company's interests. Each employee must use his best efforts to eliminate all waste and unnecessary expense. If profits are small the employee's share will necessarily be small.

We expect this move on the part of the directors will act as a stimulant to each employee and that increased efforts will be put forward all along the line to secure still better results, greater co-operation among all employees and increased confidence between the employees and the company.
